PAYROLL SERVICES

Drive Efficiency through Payroll Services

Creating financial efficiencies and streamlining important yet time consuming functions are a necessity for businesses today. Through Payroll Services, not only can your business effectively lower expenses, you can also manage risk and increase flexibility.

Palo Alto Staffing Services—and our sister company Palo Alto Staffing Technology—simplify your payroll strategy. You may not always need a full recruiting option, but transferring your employees to our payroll translates into significant savings of time and frustration.

A Smarter Way of Working

Palo Alto Staffing offers Payroll Services for both contract and direct hires. As a Silicon Valley specialized, full-service firm, we have the stability and expertise to professionally manage your payroll processes. Key Payroll Services benefits include:

- **Reduced overhead**
Our payroll rate typically comes in lower than our clients' own internal burden rates and frees up internal resources and capital.
- **Rapid assimilation**
Outsourcing payroll allows you to quickly and easily accommodate employee growth, whether you are onboarding seasonal or contract employees or full-time hires.
- **Risk mitigation**
Avoid the hassle of calculating federal, state and local employment taxes, as well as filing payroll-related tax paperwork and the potential risk of incorrect reporting.
- **Cost-effective insurance coverage**
With payroll, your cost of insurance remains unaffected by departing employees who file for unemployment. Additionally, you eliminate skyrocketing workers' compensation premiums.
